

Rethink Ventures is looking for a

Analyst

Full-time based in Munich, Germany

Rethink Ventures is a new venture capital firm exclusively focused on investing in a sustainable future of transportation. With the velocity of technologically driven change and the urgent need to decarbonize we are on the cusp of fantastic new opportunities. We are backed by leading institutional investors, corporates and entrepreneurs. Our mission is to back founders that rethink the way we transport people & goods and have true impact in the industry.

About the Position

As Analyst you will help us source and evaluate the most promising investment opportunities in areas of automotive, mobility, logistics and energy. This role will allow you to work in a young European venture firm backed by leading corporate partners from the automotive & logistics industry. It is rare opportunity to take ownership and join a VC early in your career.

Your Responsibilities

- Source high-potential startups in the fields of mobility and logistics tech across Europe
- Evaluate deals and present investment recommendations
- Research and sharpen our investment thesis
- Build a recognized voice and grow our brand across Europe
- Represent Rethink Ventures at conferences and events

What we bring to the table:

- Opportunity to join a newly established, innovative European Venture Capital firm and have real impact in the field of mobility
- Working directly and hands-on with founders and their startups
- Being embedded in a small, effective team allowing for a steep learning curve and significant exposure to the entrepreneurial ecosystem

- Work in an inspiring environment directly with senior partners and receive ongoing training to develop your technical, leadership and interpersonal skills
- Flexible work hours and location policy
- A competitive salary package incl. attractive performance incentives
- A partnership without glass ceilings and the opportunity to grow professionally

Here's what we'd like you to bring to the table:

- Outstanding university degree in business, finance, computer science or engineering - or a contrarian path with the courage to follow your passion instead of a traditional track
- Work experience (incl. internships) in a high-paced and dynamic environment, such as startups, digital scaleups, strategy consultancies, or investment banking
- Strong structuring and analytical skills (e.g. financial analysis and getting under the hood of businesses in your previous roles)
- A “people person”, who is able to connect and interact with a wide range of personalities
- Self (fire-) starter - be able to run on your own, identify opportunities and prioritize without much guidance
- Passion for technology, impact and ideally for mobility & logistics
- Full professional proficiency in English

If you want to work with startups and are passionate about making an impact, we look forward to receiving your application. **Please email to team@rethinkventures.com.**

At rethink Venture we believe in equal opportunities for everyone. We want to encourage applicants with diverse backgrounds to apply to the Venture Capital world. We process all applications without regard to gender, nationality, race, color, religion, age, disability status, sexual orientation or marital status.
